Dylan Wilson

Charlotte, North Carolina
(704)-493-4082 | dylan.wilson28@outlook.com | LinkedIn: Dylan Wilson | GitHub: Dylan Wilson

Data Science student at UNC Charlotte with experience in SQL, Python, Power BI, statistical analysis, and predictive modeling. Experienced in applying data analytics to business and collegiate athletics through professional internships and machine learning projects.

EDUCATION

University of North Carolina at Charlotte, Charlotte, NC
Current GPA: 3.45
Major: Data Science, Minor: Statistics
Certificate: Sports Analytics
August 2024 - December 2026

Central Piedmont Community College, Charlotte, NC
Completed coursework as part of the UNCC Passport Program
GPA: 3.54
August 2023 - May 2024

RELEVANT COURSEWORK

- ➔ **Applied Research**
- ➔ **Predictive Analytics**
- ➔ **Data Structures and Algorithms**
- ➔ **Database Design & Implementation**
- ➔ **Data Science for a Social Good**
- ➔ **Applied Multivariate Analysis**
- ➔ **Baseball Analytics**
- ➔ **Applied Regression**

TECHNICAL SKILLS

- **Languages:** Python, SQL, R, Java, SAS
- **Libraries:** pandas, NumPy, scikit-learn, XGBoost, SHAP, Matplotlib, Seaborn
- **Tools:** Power BI, Excel, GitHub, Lucidchart
- **Methods:** Data Cleaning, Feature Engineering, Predictive Modeling, Regression, Statistical Analysis, Cross-Validation, Monte Carlo Simulation, Data Visualization

---

PROJECTS

Crime Prediction in LA County (Python)

- Collected and cleaned LAPD crime data (2020–2024) using pandas for analysis.
- Built and evaluated Random Forest, Decision Tree, and Gradient Boosting models.
- Applied one-hot encoding, feature selection, and stratified K-fold cross-validation.
- Tuned hyperparameters with GridSearchCV and assessed performance using accuracy and F1 scores.

2026 Washington Nationals Prediction (Python)

- Built a Python-based forecasting model for the 2026 Washington Nationals using game-level data, sabermetrics, opponent strength, and Monte Carlo simulation to project their final win total and quantify forecast uncertainty.

PROFESSIONAL EXPERIENCE

Conterra Networks, Charlotte, NC
Data Analyst Intern | January 2026 – August 2026

- Queried and analyzed relational database data using SQL to support IT and business analytics initiatives.
- Developed and maintained three Power BI dashboards analyzing contracts, contract management, and customer satisfaction metrics including NPS and CSAT.
- Created and documented reusable SQL views to streamline access to commonly used Salesforce data.
- Translated business requirements into data queries, dashboards, and reporting solutions for internal stakeholders.

University of North Carolina at Charlotte, Charlotte, NC
Football Analytics Intern | August 2026- December 2026

- Operate Catapult GPS tracking technology to collect player workload and performance data during practices and training sessions.
- Conduct VALD ForceDecks and NordBord testing to collect athlete performance and physical performance metrics.
- Analyze weekly player performance data using Python to identify trends and generate actionable insights for football performance staff.

Carowinds, Fort Mill, SC
Admissions Supervisor | *July 2023 - October 2024*

- Supervised a team of 100+ admissions associates to maintain efficient park entry operations and service standards.
- Resolved guest concerns and operational issues while enforcing company policies and documenting incidents.
- Led real-time problem solving in a high-volume environment while maintaining communication and service quality.
